The NSWGTA Committee's work involved the professional development of hundreds of teachers and HSC students in 2012. Teachers attended HSC examination reviews around the state and the annual conference held at the University of Western Sydney. One of the hard working committee members, Sharon McLean, was presented with a well deserved award from the Professional Teachers' Association.

This edition focuses on the National Geography Curriculum such as the Year 10 topic on Human Wellbeing and the cross curricula perspective of Asia. Media articles involving geographers highlighted the importance of the discipline in the 21st century.

In 2013 the NSWGTA aims to conduct the annual conference on 30th August at an ACCOR hotel in Sydney. The theme will centre on the implementation of the National Geography Curriculum
