

Geography Teachers Association of NSW

# ANNUAL CONFERENCE COLLABORATE, INSPIRE and LEARN

**Novotel Sydney Olympic Park, Homebush**  
**Thursday 9 & Friday 10 March**

2017 is an important year for the implementation of the K–10 Geography Syllabus. The conference program has been carefully planned to support primary and secondary teachers with a mix of keynote speakers, masterclasses and small workshops designed to build teacher confidence and skills, inspire new ideas and collaborate with colleagues across the state as they develop and trial new teaching programs. Workshops linked to the HSC and 2016 HSC review are designed to assist senior teachers.

**Two-day conference** (Attend one or both days)

- 48 Workshops for K–12 including fieldwork, ICT, differentiation and skills
- Syllabus Masterclasses for the eight new 7–10 topics
- Targeted workshops for primary, 7–10, elective and HSC

All primary teachers can register for the 2017 GTANSW Conference at the members' discount rate

## Cost

*GTANSW Members:*

1 day (Thursday OR Friday) \$250      2 days (Thursday and Friday) \$450

*Non-members:*

1 day (Thursday OR Friday) \$350      2 days (Thursday and Friday) \$550

2017 is an important year for the implementation of the K-10 Geography Syllabus. The conference program has been carefully planned to support primary and secondary teachers with a mix of keynote speakers, masterclasses and small workshops designed to build teacher confidence and skills, inspire new ideas and collaborate with colleagues across the state as they develop and trial new teaching programs.

*Primary teachers are catered for with specific primary workshops and those applicable across many stages from K-10. These are shown in purple.*

Workshops linked to the HSC and 2016 HSC review are designed to assist senior teachers. Workshops have been chosen to support specific topics and masterclasses allowing teachers to specialise in one or two topics they are teaching in 2017 or to build knowledge and understanding across all topic areas and to choose fieldwork, skills and pedagogical options to enhance classroom teaching and learning.
