

Zombie Geography

Geography is necessary to survive a
zombie apolcalypse!!

Through these lessons, we will use
our skills to understand how we
would survive and prevent the
spread of a zombie virus.

- <http://ed.ted.com/lessons/how-do-you-decide-where-to-go-in-a-zombie-apocalypse-david-hunter>

- The next clip explains what countries are the safest to be in when a zombie apocalypse occurs.
- In your notes, write the name of each country and the three main reasons it is considered 'safe'.

Activity: Where is it safer-
Iceland or Poland?

Create this table in your notes and research the information to fill it in.

| | Iceland | Poland |
|---|---------|--------|
| Population: | | |
| Population density – population/Km ² | | |
| Highest point: | | |
| Topography – mountainous/flat: | | |
| Climate: | | |
| Available resources that could be used: | | |
| Surrounding Countries: | | |
| Other: | | |

If a zombie apocalypse were to occur, which country would you rather be in and why? Write a paragraph *justifying* your answer using your research.

Create this table in your notes and research the information to fill it in.

| | Iceland | Poland |
|--|---|---|
| Population: | 323,000 | 38.5 million |
| Population density – population/Km ² | 3.2/Km ² | 122/Km ² |
| Highest point: | 2100m | 2500 m |
| Topography – mountainous/flat: | Relatively flat Many bays | Relatively Flat |
| Climate: | Polar - tundra | Temperate |
| Available resources that could be used: | Lots of water Entirely renewable energy | Good agriculture |
| Surrounding Countries: | None | Germany, Czech Republic, Slovakia, Ukraine, Belarus |
