

# ZOMBIE GEOGRAPHY

---

Geography is necessary to survive a  
zombie apocalypse!!

Through these lessons, we will use our  
skills to understand how we would  
survive and prevent the spread of a  
zombie virus.

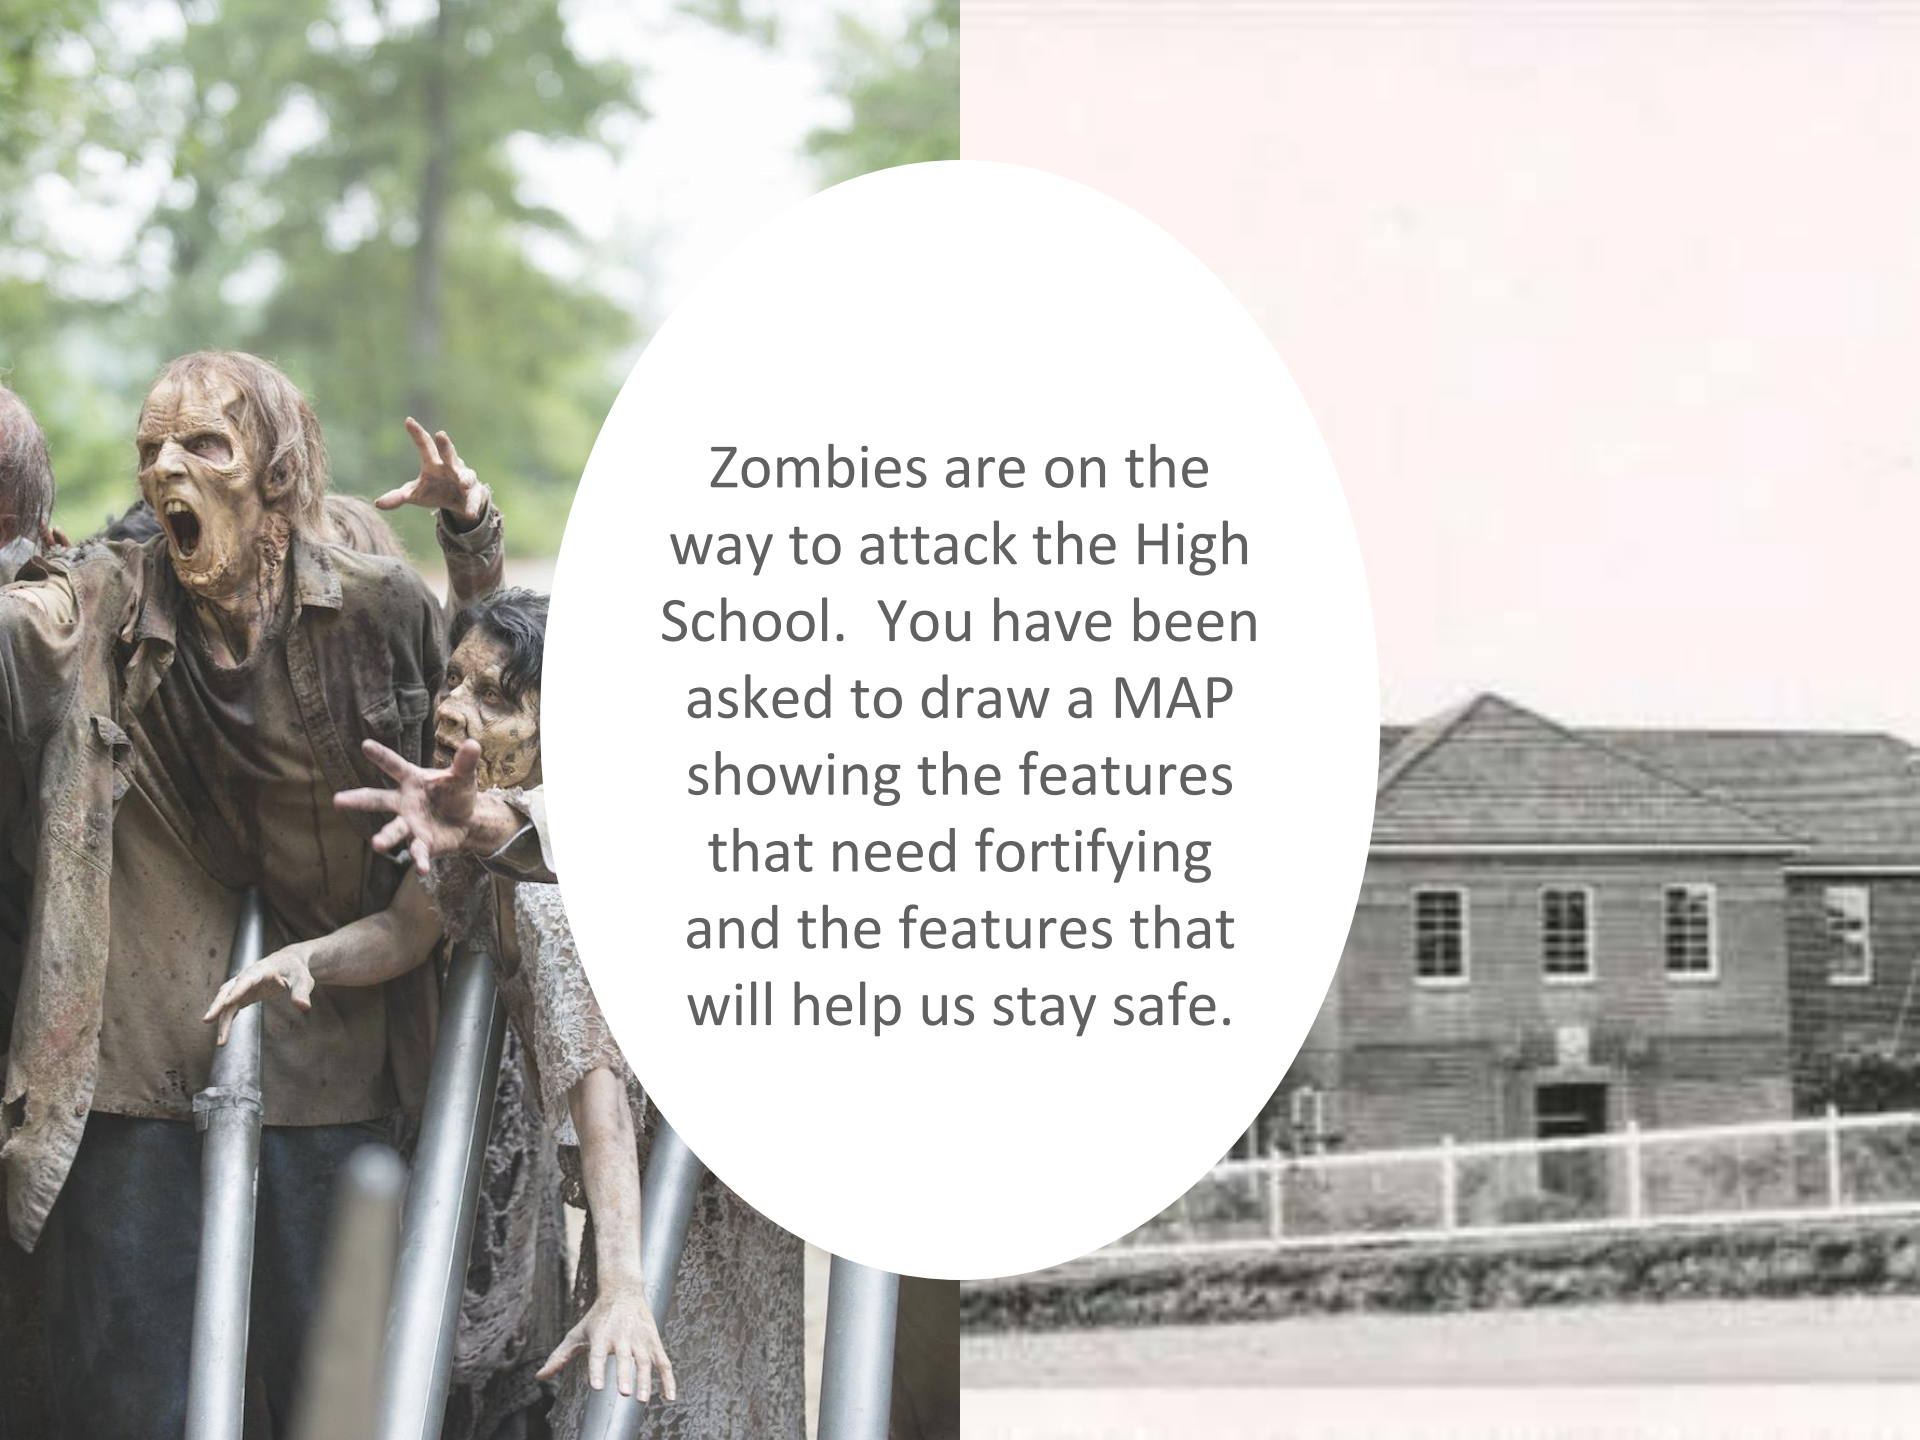

---

How do you  
decide  
where to go  
in a zombie  
apocalypse?

- The next clip explains what countries are the safest to be in when a zombie apocalypse occurs.
- In your notes, write the name of each country and the three main reasons it is considered 'safe'.

Zombies are on the way to attack the High School. You have been asked to draw a MAP showing the features that need fortifying and the features that will help us stay safe.

A person is running on a multi-lane highway. The highway has several lanes of traffic on the left side, which are heavily congested with cars. The right side of the highway is mostly empty. In the background, a city skyline with several tall skyscrapers is visible under a cloudy sky. The overall scene is in a dark, somewhat desaturated color palette.

**MAKE A CHOICE  
WERE WOULD YOU  
RUN: POLAND OR  
ICELAND**

Create this table in your notes and research the information to fill it in.

	Iceland	Poland
Population:	323,000	38.5 million
Population density – population/Km <sup>2</sup>	3.2/Km <sup>2</sup>	122/Km <sup>2</sup>
Highest point:	2100m	2500 m
Topography – mountainous/flat:	Relatively flat Many bays	Relatively Flat
Climate:	Polar - tundra	Temperate
Available resources that could be used:	Lots of water Entirely renewable energy	Good agriculture
Surrounding Countries:	None	Germany, Czech Republic, Slovakia, Ukraine, Belarus

If a z  
rath  
using your research.

ould you  
answer

# Extension Activity

- Write down 4 advantages and 4 disadvantages of being in Iceland during a zombie apocalypse
